

Congressman Lee Terry:

CUT SPENDING AND BALANCE THE BUDGET

Lee Terry has received an "A" rating from Nebraska Taxpayers for Freedom (NTF) for his effective conservative leadership. Lee has earned the support of conservatives all across Nebraska's Second District.

Cut Spending and Balance the Budget

Lee Terry supports and voted for a constitutional amendment to require a balanced federal budget. Spending cannot exceed federal tax revenues. This approach will put the brakes on out-of-control spending that threatens our nation's future.

Creating Jobs Is Priority #1

Getting our economy back on track and unemployed Nebraskans back to work is priority #1 for Lee Terry. He supports lower taxes for families and lower taxes and less regulation for small businesses to help spur job creation. Lee Terry supports policies that will motivate the private sector to reinvest and create real, long-term jobs.

Oppose Government-run Healthcare

Lee Terry opposes a coercive government-intrusive mandate on the purchase of health insurance by families. He voted against the huge \$1 trillion government takeover of healthcare last year. Lee is a strong advocate of market-based solutions to expand the availability of health insurance to those who need it.

The \$2 Trillion Difference

Lee has voted 83 times in the past two years alone to cut federal spending. Had he prevailed, federal spending would be several trillion dollars less than current law. Lee also voted for the largest single spending cut ever – \$53 billion – earlier this year during a contentious debate over funding the federal government. Finally, Lee voted against the \$1 trillion failed stimulus program that has not created new jobs.

Lee Terry Works Hard

Lee Terry has compiled an outstanding record of service and accomplishment for the residents of Nebraska's Second District. Lee gets things done because he works hard, is respected and stands on principle. He's on the job all of the time for all of his constituents. As Lee has stated, his overriding philosophy is to "Empower people, not the government."

The Choice Is Very Clear: Lee has earned the support of conservative voters in Nebraska's Second District.

Please support Lee Terry for Congress in November 2012.
